BIG DREAMS

Mirror Text Collection

Product Description

Big Dreams is a laminated mirror glass panel developed as a typographic architectural surface. Oversized text is embedded within a layered mirror structure, transforming language into a spatial element rather than a graphic overlay. The back layer is composed of oxidized galena mirror, while the front surface carries typographic elements executed in oxidized multicolor mirror. The interaction between these layers produces subtle color shifts across the letterforms, while the text casts soft shadows onto the reflective background. Depending on light conditions, viewing angle, and movement, the surface changes character, oscillating between reflection, depth, and legibility. Fully reflective across its entire surface, Big Dreams functions simultaneously as mirror and architectural statement. The product is conceived for interiors where atmosphere, identity, and controlled visual presence are essential.

Material & Construction

- Laminated mirror glass
- Back layer: oxidized galena mirror
- Front surface: oxidized multicolor mirror typography
- Double-sided visual depth through layered reflection

Technical Information

- **Thickness options:** 8 / 10 / 12 / 16 mm
- **Maximum panel size:** up to 2000 × 3000 mm
- **Processing:** CNC cutting, edge polishing, custom formats
- **Safety:** laminated; tempered laminated on request

Applications

Architectural feature walls · Hospitality interiors · Retail and concept spaces · Entrance zones · Bespoke interior installations

Customization

Text content, typography, scale, color treatment, and panel dimensions can be adapted to project-specific requirements.

Maintenance

Clean with standard glass cleaner and a soft cloth. Avoid abrasive materials.
